

Global Teacher Outreach & Strengthening The Jewish World

***Part of the \$3 Million Campaign**

Connecting Israel to the World

***Educators as Bridges Between
Israel and Diaspora
Communities***

Strengthening Jewish Communities Worldwide

- Orot 1500/The Golan Teacher Initiative doesn't stop at Israel's borders. By training Israeli educators to work in diaspora communities, we create a global network of teachers who bring professional expertise and deep cultural knowledge abroad.
- These teachers serve as ambassadors, strengthening Jewish identity, fostering connection to Israel, and inspiring the next generation in communities across Canada, the U.S., and beyond.
- Donors see impact both locally and globally: every investment in Israeli educators multiplies across classrooms and communities worldwide, demonstrating tangible, far-reaching results.
- Through these efforts, we are building lasting bonds between Israel and Jewish communities everywhere, showing that **"Am Yisrael is One."**

****For just \$2,000 per student, donors can help train an educator who will influence hundreds of students across Israel and the diaspora.**

Partnerships & Messaging

- **Strategic Partnerships:** We collaborate with Jewish Federations and community organizations worldwide to connect Israeli teachers with meaningful opportunities abroad. These partnerships ensure that each teacher is placed where their expertise and commitment can have the greatest impact.
- **Community Collaboration:** Teachers work closely with local schools and educational programs to strengthen Jewish identity, provide mentorship, and build vibrant learning environments. These collaborations extend beyond the classroom, fostering long-term relationships between Israel and diaspora communities.
- **Messaging Theme:** The initiative is anchored in the principle “**Am Yisrael is One.**” Every teacher trained and placed abroad acts as a bridge between Israel and Jewish communities worldwide, reinforcing a sense of shared heritage, purpose, and responsibility.
- **Donor Visibility:** By partnering with these networks, donors can see how their support translates into measurable local and global outcomes, from classroom impact in Israel to strengthened communities abroad.
